

Thank you to all our Sponsors!

	Smart semantic solutions that fulfill your needs. Trainings for Software Architecture and Requirements Management. Specialists for software engineering in a systems engineering context. Initiators of #11Dollar4Climate.
	dataspects is about finding and learning knowledge. It is based on a search engine that can index any kind of information and a wiki used as the primary platform to manage knowledge as connected entities.
	Dokit is the easiest way to create and share digital user guides, work instructions and best practices.
	The International Union of Railways promotes rail transport at world level and manages the challenges of mobility and sustainable development.
	Wikibase Solutions builds B2B customized solutions with an enthusiastic team of 15+ developers. We have a global client base with ambitious customers relying on the MediaWiki platform. We are an active member in the MW and SMW community. Feel free to surf to wikibase-solutions.com !
	Wiki Valley provides consulting, training on MediaWiki and many of its extensions like Semantic MediaWiki, Wikibase and hosts private and public wikis on its wiki farm.

SMWCon Fall 2019

Conference Program Keynote

*“Despise Chaos.
Create Order.”*

SMW's KM Mission & Methods

Create Order by facilitating...

...explicit externalization

forms, profiling

...implicit creation
